ADDRESS: [REDACTED]

PHONE: [REDACTED]

CYO-LSI SCORE: 10

RATER BOX: 49

OFFENSE: 1st degree Criminal Trespass (F5), Theft F4), and Criminal Mischief (M2). On 1/30/98, Eric Harris, and his codefendant Dylan Klebold were driving around their neighborhood when they decided to park near the intersection of Deer Creek Canyon Rd, and Wadsworth Blvd. to "mess around". They noticed a van parked on the other side of the lot, and went to look inside. They saw alot of electronic equipment, they broke the van's window, and took the items that were inside. They left the scene, and went to park at the Jefferson Co. open space nearby. Eric and Dylan were looking at the electronics they stole when a Jefferson Co. Sheriff knocked on the window, and began questioning them about the equipment. Eric and Dylan admitted guilt, they were arrested, booked, and released to their parents.

PRIOR RECORD: None.

SIGNIFICANT EVENTS: Eric is began taking Zoloft for depression about 6 weeks ago. He said that he is feeling better now that he is on Medication. Eric said that he has problems with anxiety and allows his anger to build up until he explodes. Eric says when he gets really mad he punches walls. He is seeing a therapist once or twice a month, the family also meets with him on occasion. Eric said that he has thought about suicide a couple of times, but never seriously, mostly out of anger.

DRUG/ALCOHOL HISTORY: ALCOHOL: Light/none. Eric has drank alcohol 3 times, and has never been drunk. The first time he tried it was at age 13, the last he drank was approx. 9 months

ago. He doesn't like the taste or the effects of alcohol, and says it doesn't "interest" him. DRUGS:None. Eric has never used illegal drugs. He said that drugs are "trouble" and are a "waste of time, and of life".

**EDUCATION/EMPLOYMENT HISTORY:** Eric is a junior at Columbine High School. His grades are A's and B's, and he is enrolled in several honors classes. Eric puts forth a good effort to maintain his grades. He was suspended last Oct. for three days for possessing student locker combinations. Eric gets along well with teachers and administrators, and he has many friends. Eric plans to graduate from High School, and get a job in the computer field, he is unsure about whether he will attend College.

**FAMILY HISTORY:** Eric has a good relationship with both parents. He said they are dependable, supportive, and loving. His mother said that he is respectful, and wishes the family would communicate more. Eric and his older brother Kevin are very close, he goes to school at CU, they see and speak to each other often. Eric says his parents are "strict, but fair". They need to know where he is and who he is with most of the time. Eric's punishments generally include being grounded, and taking away privileges. After this incident occurred Eric was grounded for a month, he could have no contact with Dylan, and was not allowed to use the computer. Mr. and Mrs. Harris believe that Diversion is a good program, and it will allow Eric to accept responsibility for his actions, and realize the seriousness of his offenses. There is no criminal history in the family.

**PEER RELATIONSHIPS:** Eric enjoys playing soccer, spending time with friends, going to movies, and playing on the computer. Eric spends alot of time away from home, he's either working, going to school, or going out with friends. His parents know most of his friends and he feels comfortable having friends over. His codefendant Dylan is his only friend with a criminal history, and none of his friends drink alcohol or use drugs. Eric feels that gangs are "stupid and dangerous". Eric does not currently have a girlfriend, and he has never been sexually active. He is well educated on birth control and sexually transmitted diseases.

**INTAKE IMPRESSIONS AND RECOMMENDATIONS:** Eric was cooperative, open and honest during his intake appointment. He feels Diversion is appropriate for his actions, but feels Dylan is more responsible since it was his idea. He said that he thought about the victim while he took the equipment, but said that it did not detour him. Eric is a 12 mo. CA, his contract includes; 45 hrs of community service, anger management, individual counseling, MADD victim panel, part time work, monthly progress reports, and the CJ class.

# PRE-INTAKE PHONE INTERVIEW FORM

CLIENT: Eric Harris JUVENILE ELIGIBLE FOR INTAKE? Y ☒ N ☐  
 PHONE INTERVIEW DATE: 3/3/98 COUNSELOR: Andrea S.  
 INTAKE GROUP DATE: 3/19/98 ORIENTATION GROUP DATE: 4/21/98 LA/CA/CA

Attempt phone contact with juvenile and/or family within 24 hours of being assigned case. Explain the Diversion program and why the case was referred to us. The phone interview should be a quick call to determine obvious initial ineligibility. If you cannot quickly determine that the juvenile is ineligible and/or you need additional information, err on the side of caution and schedule an intake group date. When scheduling the family for an intake group, provide them the option of the next two upcoming intake dates only. Allow yourself two individual intake time slots (new format) each week for overflow or complicated cases. Also schedule an orientation group date and then provide directions to the intake site (D.A.'s office or the Taj).

- 1) Verify juvenile's address. If the Juvenile lives outside of Jefferson County, he is not eligible for Diversion. If the number you have is incorrect and you cannot contact the juvenile or family, give the information to Parti so she can contact George Mumma to do an investigation

Jeffco

- 2) Ascertain culpability for the referring charge. Does the juvenile take responsibility for the alleged criminal offense? Explain limited immunity and that what he says will not be used against him in a court of law. However, we need to know if he is accepting responsibility which is required for acceptance onto Diversion. If the juvenile does not take responsibility for the offense and does not think the charges are fair, then he is not eligible for Diversion. Sometimes discussion around guilt is required and an intake is warranted even if they appear to deny guilt ("I thought I had permission."). Blatant denials are not eligible for intake ("you have the wrong guy," "I wasn't there.")

Guilty

- 3) Does the juvenile have any prior or pending charges? If the juvenile has prior district level adjudication(s), pending district level charges, past sex offenses or past violent offenses he is not eligible for Diversion.

No

- 4) Has the juvenile ever been part of a gang or involved in gang activities? If the juvenile states he currently belongs (within the last year) to a gang he is not eligible for Diversion. If there is any question regarding level of involvement, obtain additional information at intake.

No

- 5) If possible, determine if there is an obvious safety issue. If parents report that the juvenile's behavior remains out of control or he is an immediate threat to himself or others (continual runaway, recent attempt of suicide, assaultive, etc...), his case may be more appropriately handled through court. If it is not immediately clear there is a safety issue, gather additional information at the intake. If there appears to be many issues at hand, the case may be better suited for an individual intake date.

None

## AND PROCEDURES

You have the following constitutional and legal rights. Read each one carefully. If you do not understand these rights or have any questions, those will be answered in your first meeting with Diversion.

1. The District Attorney's office has reviewed the charges against you and believes that it has a valid case to prosecute in court. However, the District Attorney's office has decided to offer you an alternative to prosecution: Juvenile Diversion.

2. During your intake with Juvenile Diversion you have limited immunity. That means that you can discuss the charge against you with the Diversion Officer, and the Diversion Officer cannot use that information to testify against you in Court.

3. If after meeting with Diversion you decide that you want to go to court, you may have a Petition in Delinquency filed against you with the Court. That is a request to the Court to find that you are a delinquent child. The Petition will be based upon the charge or statement that you committed an act or acts which are in violation of the law and, therefore, are delinquent acts if committed by you. you have these rights under Colorado State Law:

A) You have the right to be silent; that is, the right to make no statements or explanations to anyone about these matters. Anything you do or say must be voluntary and can and will be used against you in Court. You have the right to have a parent or lawyer present before you say anything; and even if they are present, you still do not have to say anything.

B) You have a right to have a lawyer at all times. If you cannot afford one, the Court will appoint one to represent you at no expense to you.

C) You have the right to have a hearing or trial to determine if the allegations of the offense(s) are true. That hearing would be in front of a Judge unless you request a jury of six people.

D) You would have to request a jury trial in person before the Court if you wanted one.

E) At the hearing, witnesses would be called against you and you could ask them questions. You could call witnesses to testify for you and could subpoena them and make them come to Court if they would not agree to come voluntarily.

F) You could testify yourself and make your own explanation of what happened if you wanted; however, you would not have to testify; no one could make you, and it cannot be held against you if you do not.

G) It is the responsibility of the State through the District Attorney to convince the Judge or jury beyond a reasonable doubt that you committed one or more of the acts charged in the Petition, or the case would be dismissed. If you did not agree with the decision of the Judge or jury, you could appeal the case to a higher Court.

2) If the Judge or jury finds the allegations in the petition to be true, or if you admit them, then a hearing would be held to determine what to do with you. This hearing is called a dispositional hearing. The possible dispositions are that you could be placed on probation; you could be fined up to three hundred dollars (\$300.00); or you could be placed in a hospital or other place for examination and evaluation of any mental health problems by a physician or psychologist; you could be committed to the custody of the Division of Youth Corrections or Department of Social Services for placement in a foster home, group home, youth camp, or a locked facility for up to two years.

3) You may petition the Court for the expungement of your record, which involves the sealing of all records, including those of police agencies, one year after you are released from probation as provided by law.

4) If you choose to participate in the Diversion Program, you are waiving any right you may have to have the charges which are the subject of the Petition of Delinquency filed in a speedy manner. In addition you are consenting to participate in the Diversion Program for a period of up to eighteen months from the time of your acceptance into the Program.

If you choose to participate in the Diversion Program, you have these additional rights.

1. You may be represented by an attorney at every stage of the proceedings.
2. The child and his parent(s), guardian, or other legal custodian must freely and voluntarily consent, in writing, to the Diversion Program.
3. Any admissions made by you, in writing or verbally, pursuant to this Diversion Program shall not be used against you.
4. You may petition the Court for the expungement of your record; which involves the sealing of all records, including those of police agencies, one year after you are released from supervision of the Diversion Program.

After this incident occurred, Eric expressed his feelings concerning the above items to a psychologist. The doctor recommended antidepressant medication which seems to have helped. His mood is more upbeat.

Eric seems to suppress his anger, then "blow up" and hit something or verbally lash out. He hasn't done this at home but has done it at school and work.

## DIVERSION EXPECTATIONS

As a participant with the Jefferson County Juvenile Diversion Program, I Edward, understand and agree to follow these expectations.

### 1. Juvenile Diversion is based on Personal Responsibility and Personal Accountability.

Responsibility means you will answer for your actions and obligations. You will act in socially acceptable ways and strive to complete all your legal and moral obligations.

Accountability means that you will admit your actions and accept the consequences of those actions, good and bad.

According to these definitions and by accepting Diversion, you are agreeing to these principles.

Being honest is expected at all times and does not excuse your behavior.

You will not make excuses or hold others to blame for your mistakes and failures. Rather, you will hold yourself accountable for your actions or lack of actions while on Diversion.

One way of demonstrating accountability and responsibility while on Diversion is understanding that no one has to help you succeed on Diversion. Friends or family may be willing to take you to your appointments or elsewhere and your parents may be willing to help you pay your fees. If they are unable, unwilling or simply do not follow through with helping you, they will not be held accountable. YOU WILL.

If you have the ability to accomplish something on your own, do not take advantage of another's generosity.

Remember -- If others are willing to help you, out of common courtesy, you should show your appreciation. (ie...cooking dinner, cleaning house, monetary payments).

You are responsible for keeping all your appointments with Diversion and provide 24 hours notice when you cannot do so. Failure to provide notice will be considered a contract violation. If you are late, it will be considered a tardy (with possible consequences if you establish a pattern of being late)

Some reasons are ok for rescheduling and others are not:

Okay

- Genuine Emergency (may require verification)
- Illness (may require verification)

Not Okay

- Work schedules (you are expected to have planned well and coordinated all your obligations)
- Leisure activities
- Sporting events (you are expected to have planned well and coordinated all your obligations)
- Lack of a ride

Remember: Lack of planning on your part does not create an emergency on the part of parents, school or Diversion.

You are responsible for communicating with your Diversion Officer when needed not simply leaving a message.  
(Parents will not contact Diversion for you)

You will keep all involved parties informed of your progress while on Diversion. (Parents, Treatment providers...)

Including but not limited to:

- Doing well on Diversion
- Asking for assistance
- Contract violations

You will state in an appropriate way any concerns you may have about your Diversion Program.

You agree to dress appropriately while attending Diversion requirements. More specifically:

- No drug or alcohol related clothing - including sayings or pictures on clothing
- No "sagging"
- No obscene or suggestive clothing.
- No Violent sayings or pictures on clothing.

Remember: Use good judgement when deciding the difference between what is offensive or disrespectful and what is different.

You will be prepared to provide a urine scan each time you attends a Diversion appointment, or upon request.

You will treat all referral agencies with respect and follow their rules.

You will give 100% effort toward completing your Diversion requirements and nothing less will be accepted.

You will put yourself in the best possible position for success at all times.

Your effort will determine how hard the program is or is not.

Diversion philosophy is:

"THERE IS NO TRY, THERE IS ONLY DO"

&

"EVERY PROBLEM HAS A SOLUTION"

TERMINATION REPORT  
JUVENILE DIVERSION

NAME: Eric Harris                      CASE NUMBER: 98JD336  
DATE ACCEPTED: 3-25-98              STATUS: 12 Month CA  
TERMINATION DATE: 2-3-99              DCJ CRITERIA: YES  
DIVERSION OFFICER: Robert Kriegshauser  
STATUS: Successful Early Termination  
TERMINATION REASON: Complete Compliance with Diversion

PROGRAM PARTICIPATION: Eric accepted Diversion on the presenting charges of 1st Deg. Criminal Trespass (F5), Theft (F4), and Criminal Mischief (M2). Eric's Diversion contract included a CJ Class, Progress reports, Apology Letter, 45 hours Community Service, Fees, Adult Legal Issues, Anger Mgmt, MADD Panel, Ind. Counseling.

Eric did a very nice job on Diversion. He remained focused on Diversion despite completing a few classes that he felt had not impact, such as the MADD Panel. He did enjoy completing the Anger Mgmt. at ISAE which seemed to fit nicely with the individual counseling he was involved with. Eric excelled in school and never had any problems in this area. All fees including the two negative urine scans were paid in a timely manner. Community Service was completed at the Link Rec. Center and the comments from the supervisor were very good. Eric completed the Adult Legal Issues Packet very quickly and stated that he thought that piece was interesting because he discovered things he did not know.

PROGNOSIS: Good Eric is a very bright young man who is likely to succeed in life. He is intelligent enough to achieve lofty goals as long as he stays on task and remains motivated.

RECOMMENDATIONS: Successful Termination

Eric should seek out more education at higher levels. He impressed me as being very articulate and intelligent. These are skills that he should grow and use as frequently as possible.

[REDACTED]

4/16/98: Met with Eric. Gave him apology letter outline, a rough draft is due next appt. Discussed plan of action while on Diversion. First apology letter, then begin CS, continue with therapy, attend MAdd and do CJ class. Eric has been having difficulty with his medication for depression. A few nights ago he was unable to concentrate and felt restless. He went to the doctor and the Dr. is changing his medication. He can't start the new medication for 2 weeks b/c the Zoloft needs to get out of his system first. He is a little concerned about how he will feel for the next few weeks. School and work are going well. Prom is Saturday, he isn't going to the dance, but he is going to the after prom party. Took a UA, said it would be clean. Next appt 4/30 @ 2 pnm

4/30/98: Met with Eric. Brought in apology letter, well written, just needed a few changes, will redo and bring back next appt. After prom party was fun. Established CS deadlines 10 hrs by 6/1, 15 hrs by 6/29, and 20 hrs by 8/3. Grades on report card were A's, B's, and a C. Eric is feeling okay now that he isn't on medication, but knows he will feel better when he begins his new medication. Work is going well. He brought in a planner and said that it is helping him stay more organized. Next appt. 5/14 @ 2 pm.

5/14/98: Met with Eric. Brought in a rewritten apology letter, did good job. Began new medication, doesn't feel a difference yet, his dr. said it would take a few weeks. Therapy is going well, still seeing him twice a month. Received a raise at work. Eric plans on getting another job this summer to save more money. Next appt 6/3 @ 10:30.

6/2/98: Met with Eric. He completed 16 hrs of CS and met his first deadline. Reports his grades are A's - C's. He is working part time at Black jack Pizza, and is looking for another job to do during the day. Says he feels pretty good, and his stress is better now that school is out. Went over payment schedule, first payment due next appt. I told him that Bob would be his new counselor. Next appt 6/24 @ 2:30.

6/24/98: Met with Eric. He got another job, he now works at Tortilla Wraps and Black jack Pizza. He has finished 25 hrs of CS, he has met his deadlines so far. Brought in a \$36.25 money order, next payment due in July. Medication is good, he is controlling his stress well. I introduced him to Bob and they scheduled his next appt. Muy facile hombre.

Counselor's Signature

## ADULT LEGAL ISSUES

1. Using the Colorado Revised Statutes which has been loaned to you, look up the following crimes using the statute number (i.e. 18-18-401).

2. Read the definition for that crime, and write down in your own words an example of what someone could do to get charged with that crime (i.e. after reading the law on Harrassment, someone might write "calling someone on the phone, letting it ring and ring, and hanging up when they answer, just to make them mad".)

3. If, after reading the definition, you do not understand the law and cannot give the example required in #2, just mark it with "need help" and your Diversion counselor will help you with it.

4. At the end of every definition you will find the "class" and whether it is a "felony", a "misdemeanor" or a "petty offense". Write down F-(1,2,3,4,5, or 6) for a felony; Write down M-(1,2, or 3) for a misdemeanor; Write down PO-(1 or 2) for a petty offense. For example, under 18-4-401, a theft of \$15,000 or more is ?? Answer: F-3 (Class 3 felony).

5. Finally, in the very first couple of pages of the Statute book (pages are numbered with iv and vi at the bottom), you will find the sentencing "charts" for Felonies (page iv) and for Misdemeanors and Petty Offenses (page vi). Using the Class of felony, misdemeanor or petty offense, look up and write down the minimum and the maximum sentence.

(Eric Harris)

The anger management class I took was helpful in many ways. I feel the instructors were well qualified for this class and the class size was not too big. I learned several things about how drugs and alcohol contribute to violence, and how to avoid using drugs and alcohol. I felt like the class was focused more on people who had committed violent crimes and people who use drugs and alcohol, rather than being more broad. Nevertheless I still learned what anger is, how to recognize it, and how to deal with it. Violence is expensive, along with anger. Committing violent crimes brings forth fees, bills, and punishment that have very deep affects on that person, not to mention the emotional turmoil it causes. I learned the four stages of anger, tension building, verbal escalation, physical escalation, and opportunity for change. I believe the most valuable part of this class was thinking up ideas for ways to control anger and for ways to release stress in a non-violent manner. Things such as writing, taking a walk, talking, lifting weights, listening to different music, and exercising are all good ways to vent anger. We also discussed the positive and negative results of anger and violence. Another thing we discussed was "triggers." Triggers are defined as warnings or symptoms that one experiences when getting angry. Things like quick breathing, tunnel vision, muscles tighten, and teeth clench. I feel that all of the suggestions can all be helpful, but the main part of anger management comes from the individual. If the person does not want to control his/her anger, then it can be a problem. The person must want to control his/her anger and actually want to not be violent or angry. It all starts in the person's mind. I have learned that thousands of suggestions are worthless if you still believe in violence. I am happy to say that with the help in this class, and several other diversion-related experiences, I do want to try to control my anger.
